

iSkin® CERULEAN® F1 Wireless Headset Pairing Guide.

Pairing with MacOS X 10.6 (Snow Leopard)

Buttons located on the (R) Right Earpiece

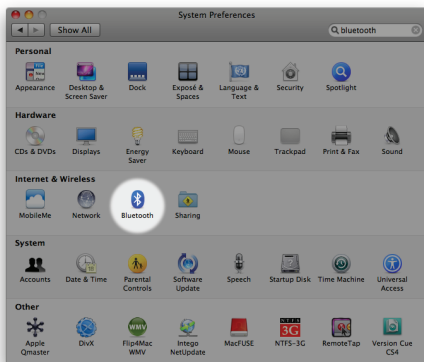

To begin pairing your CERULEAN F1:

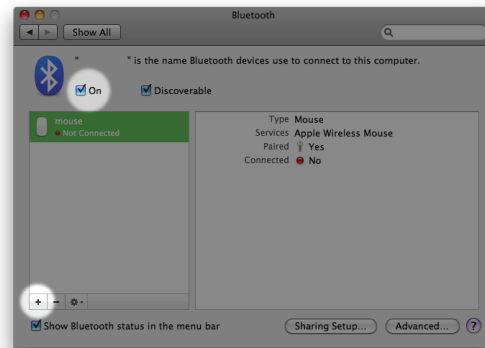

1. Ensure the CERULEAN is powered OFF
2. Press and hold the Multi-Function Button 
3. While holding (step 2), switch the power button to the ON position. 

Note. The status light on the Multi-Function button will flash Blue/White while pairing mode is active.

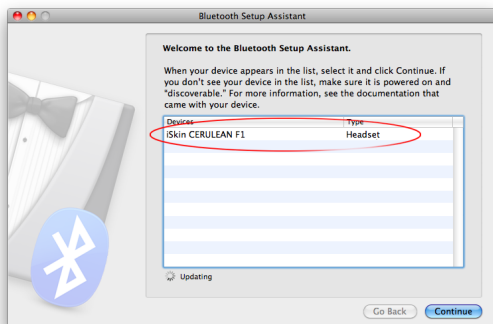

On your Macintosh® using OS X 10.6

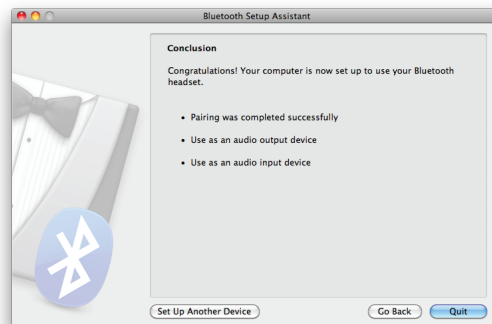

In System Preferences Select "BlueTooth"

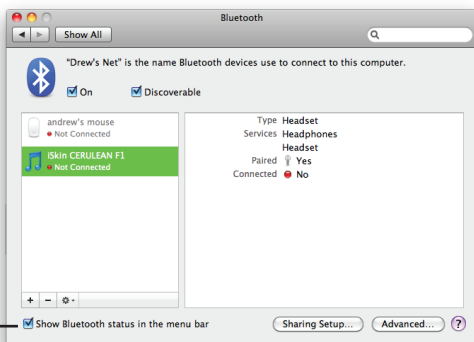

Turn Bluetooth ON. Then Press the [+] Button

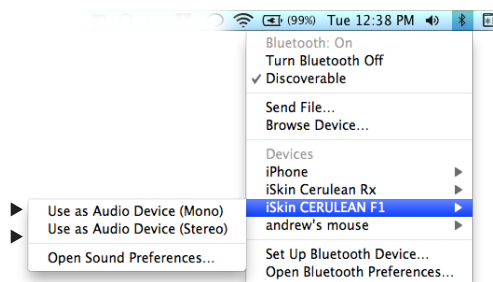

Select "CERULEAN F1" and press "Continue"

Verify Pairing was Successful (select Quit)

In Bluetooth System Preferences: Select the "Show Bluetooth status in the menu bar"

- Choose the Bluetooth icon in the menu bar, then Select CERULEAN F1
- ▶ **Use as Audio Device (Stereo)** for listening to music (iTunes etc.)
 - ▶ **Use as Audio Device (Mono)** for VOiP and speaking functions.
